vate disease of any kind or character which he  
undertakes and fails to cure.

## MIDDLE-AGED MEN.

There are many at the age of thirty to sixty  
who are troubled with too frequent evacuations  
of the bladder, often accompanied by a slight  
smarting or burning sensation; and a weaken-  
ing of the system in a manner the patient can-  
not account for. On examining the urinary  
deposit aropy sediment will often be found  
and sometimes small particles of albumen will  
appear, the color will be a thin milky hue,  
again changing to a dark and torpid appear-  
ance. There are many men who die of this  
difficulty, ignorant of the cause, which is the  
second stage of seminal weakness. Dr. S. will  
guarantee a perfect cure in all such cases, and  
a healthy restoration to the genito-urinary or-  
gans.

COME THIS WAY.

We published an item in the general news column of the JOURNAL in regard to a promised investigation by the General Land Office into the ways and means by which speculators have acquired immense tracts of valuable land in Dakota and New Mexico, in the first under the pre-emption laws, in the second by spreading out certain Mexican grants. It is a matter of astonishment to everyone who has been a witness to the operations of our land laws, that such an investigation has not been instituted years ago. Gigantic frauds were perpetrated in California under Mexican grants and every State and Territory in the Union, where there has been land open to pre-emption, has witnessed the most outrageous swindles under the color of law. The land laws of the United States were specially designed to benefit the actual settler, to provide a home for whoever would go on to the land with his household goods and there live, but these laws have been used by land grabbers to absorb into a few hands vast tracts of the public domain for speculation. There is a most pressing need of a thorough investigation into the way in which the design of the law has been circumvented, and while the agents of the Land Office are about it we invite them to come out to this State and look into the business here. A gentleman of our acquaintance, a few months ago, started out to find and locate a quarter section of timber land somewhere north of Reno. He spent two weeks in the vast forests that cover the eastern division of the Sierras, laying partly in Nevada, but was unable to find a single vacant quarter section of good timber within sixty miles of Reno. The whole country was located. He brought in a long list of the names of these locators, and found that in every instance the claims had been assigned to one firm and now believes that more than nine-tenths of those locations were fraudulent, that the persons making them were aliens and were hired to do this work at monthly wages. The people of Reno and the surrounding country are very much interested in this matter. If over the Nevada and Oregon Railroad is built (which we hope it will be) we could draw our timber supplies from the region to the north of us at much lower rates than it will be furnished from up the Truckee, at least in a few years, provided (and here is where the pinch comes) the timber was owned by a number of persons, but if it is held, as we have reason to believe it now is, by one firm, we are at the mercy of a monopoly that has shown its ability to charge "what the traffic will bear." We suggest to the people of this county that they get up and forward to Washington a full statement of this matter, and ask the Secretary of the Interior to send out a special agent to investigate this whole business by which the people have been robbed of a great tract of valuable timber, or perhaps it would be well to have the petition presented directly to Congress. From this northern belt our future supply of lumber must come and not only ours but that for the people of all that portion of the State that draws its supplies by way of the Central Pacific. We are quite certain that if this matter was honestly investigated these bogus locations would be declared void and this timber tract thrown open to location by bona fide settlers. The press and people of the State should make a vigorous move in this matter, for it concerns intimately the prosperity and convenience of a great number of persons.

Dispatches from St. Petersburg say Saulkow, who went in search of the Jeannette, and while on board the Chasseur met the United States steamer Rodgers, engaged in the same mission, telegraphs from Irkutsk, under date of December 26th as follows: "We parted on the 9th of August from the Rodgers, which shored for Herald Island. The steamer Erok with the Cremona expedition on board then returned to Chinese ports, having previously accompanied the Rodgers in her search. An American steamer, having on board the Captain of a stranded whaler, has joined them in Providence Bay. The Captain states that he has seen a boat containing corpses, and also silver spoons and other articles marked Jeannette. The boats had been cast on the rocks in Herald Bay. The commander of the Rodgers therefore resolved to proceed thither. He anticipated wintering there and, aided by dogs, purchased at Kamchatka, intends organizing parties to make a thorough search of the island."

COMING TO A HEAD.

"A dispatch yesterday shows that the question of the Pope's residence and independence is about to be brought to a head. Bismarck, it is stated, has addressed a dispatch to the Italian government, taking the ground that the condition of the Pope must be regarded as an international, and not as an Italian question, and proposing a Congress of the Powers to deal with it." This interference of Bismarck in the status of the Pope means just this. He does not care a fig for the Pope, but he has drawn down on himself a disagreeable storm of indignation by the snail's pace with which he moves toward reform in his government, and he finds that he needs the support of the Papal party in the German Parliament. King Humbert knew what he was talking about when he made that little speech on New Year's day, in which he served notice on the Powers, that Italy would now allow interference with her internal affairs. It is said that Spain, England and Germany will meet in a Congress to settle the question of the future status of the Pope. France has not joined her neighbors and we do not believe she will. It is quite certain that Italy will go to war before she will back out from her position and this would be France's opportunity to wipe out the disgrace of the Franco-Prussian war and recover the two lost provinces. Bismarck will think twice before he courts such a contingency however remote. He may negotiate enough to secure the Papal votes he so much needs, but he will let the Pope stay a "prisoner" in the Vatican, or out of it for that matter, before he will ask a war with Italy and France combined. As for England, she wouldn't touch the Pope or his affairs with a forty-foot pole.

A Berlin dispatch says Emperor William has decided to proclaim Crown Prince Frederick William Regent on the 22d of March next, on the occasion of Emperor William's eighty-fifth birthday.

The Watson Mfg. company, Brightwood (Springfield) Mass., which started in 1845, producing that year eight freight cars worth \$4,700, now employs 700 men and turns out 2,500 cars yearly, worth \$1,500,000. The company has nine large buildings, occupying sixteen and one-half acres of ground.

Humboldt County Scrip. The Winnemucca Silver State of Saturday says "Yesterday inaugurated a new era in the financial history of Humboldt county. Warrants were issued by the Auditor for claims allowed by the Commissioners, and for the first time in the history of the county those warrants were sought for by the moneyed men at par. The warrants draw interest at the rate of ten per cent per annum and while money is apparently scarce, several were buying the warrants as an investment. In early days when warrants were first issued in this county, they sold for one-tenth of their face value in coin. In those days a box of candles, worth in cash at the stores \$8.50, cost the county \$120 in scrip, and as the scrip was not redeemed for two or three years, the interest amounted to \$30 or \$40. After the railroad was built the county was virtually out of debt, yet scrip sold for 75 or 80 cents on the dollar. In 1873 the Court-house was built, and though the debt incurred in erecting it was funded, the floating indebtedness increased and kept on increasing until quite recently and warrants sold for 90 cents until about 18 months ago, when 95 cents was paid for large pieces of scrip. The warrants issued now will probably be redeemed next December, when taxes for the current year are paid into the Treasury."

Weather Prophecies for 1892. We have received from R. Manall, of Rock Island, says the Enterprise of yesterday, an extract taken from his almanac for 1892, with his predictions of the probable nature of the seasons for the coming year. He says: "The seasons of the year for 1892 appear to be marked out by the positions of the planets as follows: The temperature should average above the mean of the season during January and February, both in Europe and the United States. The temperature will probably average above the mean of the season during March or more so than January and February, both in Europe and the United States—this giving us a moderately early Spring—up to say about April 5 or 10, of which time the temperature will likely average below the mean of the season during the balance of the month of April, also, below throughout the month of May. May will be a cool, stormy month, for the season, in Europe and the United States, with the greatest rainfall on sea-bordering countries. All efforts should be made to take advantage of the weather during March and April by the agriculturists to forward their work, as the month of May will probably retard the progress of vegetable growth and farming to some extent. The above agrees exactly with what Captain Sam Wagoner says in regard to the weather for the year. Sam has been watching the weather for twenty-eight years and has it down to a spot. Sam calculates by cycles, which amounts to about the same thing as the return of the planets in certain positions."

Bird Cages and Feather Baskets. A fine assortment just received at Osburn & Shoemaker's.

The White House.

Is one of our largest clothing establishments, and such an one as not only Reno but the State of Nevada can be proud of. Such is the extensiveness of their sales daily that the firm never has on hand what is called an "old stock," for just at present they are confined to a salesroom space which is wholly inadequate to their demands, and therefore, they are absolutely forced to order new goods, almost daily, to fill their orders. After a careful inspection of their stock of gents' and boys' clothing, gents' furnishing goods, hats and caps, boots and shoes, etc., we can truly say that we doubt if any other dealer in their line in Nevada has ever made an approach to the exhibit of the White House. The articles of Fine Custom Made Clothing kept by this firm is seldom seen in interior stores, and are kept but by a few of the larger houses in San Francisco. Some people think they cannot obtain a really good and fashionable article without sending to San Francisco, but that idea is soon dispelled after an examination of goods and prices at the White House. This establishment is admirably managed by Abrahams Bros. Call upon them and satisfy yourselves that what we state is true. Their prices are lower than those of any similar establishment in the State. No. 19 Commercial Row next to Postoffice.

At Brookins'. If you want pianos and organs, or music books, sheet music, or anything in the music line you will please call on Brookins. We can safely say that Mr. Brookins has the most assortment of pianos and organs and music books we ever saw outside of any of the large cities and for prices he beats San Francisco or any house on the coast. His instruments come direct from the manufacturers in the East, and he has the agency of thirteen different factories. He can supply you with any make you like. He has just received a very large stock of holiday goods of every description and will sell cheaper than any house in the city. C. J. BROOKINS, Reno, Nev.

Do not be persuaded to buy a "Cheap John" piano, but purchase the Henry F. Miller piano, which is used by artists more than all the other makes combined. M. J. STIMSON, Agt.

Have you seen those beautiful easel frames, statuettes, vases, toilet sets and other cases at Osburn & Shoemaker's? Picture Frames and Mouldings. Can be bought for cost at Osburn & Shoemaker's.

Sewing Machines. Can be bought cheaper at Osburn & Shoemaker's than elsewhere in Reno. A good house and lot for sale within two blocks of Virginia street, price \$500. Apply at this office.

Stop that Cough. If you are suffering with a cough, cold, asthma, bronchitis, hay fever, consumption, loss of voice, tickling in the throat, or any affection of the throat or lungs, use Dr. King's New Discovery for Consumption. This is the great remedy that is causing so much excitement by its wonderful cures, curing thousands of hopeless cases. Over one million bottles of Dr. King's New Discovery have been used within the last year, and have given perfect satisfaction in every instance. We can unhesitatingly say that this is really the only sure cure for throat and lung affections, and can cheerfully recommend it to all. Call and get a trial bottle free of cost, or a regular size for \$1. For sale by E. E. Queen, West side Virginia street, Reno.

Bucklen's Arnica Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all kinds of skin eruptions. This salve guaranteed to give satisfaction in every case or money refunded. Price 25 cents per box. For sale by E. E. Queen, west side of Virginia street, Reno.

A COUGH, COLD OR SORE THROAT should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. BROWN'S BRONCHIAL TROCHES do not irritate the stomach like cough syrups and balsams but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always gives perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c a box everywhere.

The three men taken to Virginia yesterday morning by officer Bradley claim they can prove that they were in Dayton the night of the Pollock affair. The clothes and other articles in their possession they say can be accounted for. It is not known definitely whether any of the articles found can be identified as belonging to the Pollocks.

Scarcely any disease to which human beings are subjected, is so thoroughly discouraging as Fever and Ague. The periodical return of alternate chills, fever and sweating, is terribly distressing. Ayer's Ague Cure is the only remedy known, which is certain to cure permanently, by expelling the malarial poison which produces the disease. It does this surely, and leaves no ill effect upon the system.

## GRAND JURY REPORT.

To the Hon. S. D. King, Judge of the Second Judicial District of Nevada:  
The Grand Jury, empaneled for the January term of said Court, held in and for Washoe county, herewith present their final report, and respectfully ask to be discharged.

Your Grand Jury would report that in addition to the indictment heretofore brought into Court, we have found one true bill of indictment for arson; one for embezzlement; three for keeping places of resort for the smoking of opium and one for resorting to a place for the purpose of smoking opium.

Upon careful count of funds in the County Treasury, we found as follows:  
Coin and currency.....\$23,654 93  
Reno Sav. Bank Certificates.....2,800 00  
Court House Bonds paid.....3,180 00  
Reno Bridge Bonds paid.....2,200 00  
Wadsworth Bridge Bonds pd.....1,320 00  
Reno School House Bonds pd.....1,880 00  
Reno Fire Dept. Note paid.....1,172 50  
Expenses on Bonds & Stamps.....16 60  
County War. Nos. 3562-5 pd.....152 50

Total.....\$36,376 53

The sum agreed with the amount required to be in the County Treasury as per balance sheet of the County Auditor, January 1st, 1891.

We also found in the safe of the County Treasury the sum of three hundred and thirty-one 60-100 dollars, a balance remaining to the Reno School Building Special Fund, which amount is not included in, or counted with, the county funds, but is disbursed under the provisions of a special statute.

The amount of \$2,000 above reported as being represented in the County Treasury by two certificates of deposit issued by the defunct Reno Savings Bank, have been reported upon by a former Grand Jury and have provoked much discussion. These certificates were received by the then acting Co. Treasurer in lieu of coin—the county at that time not having a safe depository for coin.

They were received by him and by the present Co. Treasurer at their own risk. Each of them had the option to receive or refuse them, and each were responsible for failure to collect upon paper in their hands, which by its terms was payable upon presentation. The county can be in no wise responsible either for the taking or holding of them.

The books and accounts of both the Auditor's and Treasurer's offices seem to be well arranged and systematically kept. Documents and newspapers are regularly filed and carefully preserved. Each of these officers are attentive, obliging and trusty. We have examined every claim presented and allowed against the county during the past year. We note that the County Commissioners allowed in March one bill of \$10, which was rejected the month previous. It may have been too hastily rejected in February, but could not again legally be considered.

We find that a certain claim in the sum of \$800 was presented, claiming payment for several thousand miles travel in search of a criminal.

The Board allowed the sum of \$405, contrary to the advice, and notwithstanding the protest of the Dist. Attorney.

If the principle is to prevail that any individual, upon obtaining a requisition from the Governor, may "go to the ends of the earth" at county expense, there may soon be an hundred or two Washoe county officials actively scouring the Atlantic seaboard in search of supposed criminals.

A claim was presented in the sum of \$315 for services of a short hand reporter in taking depositions in a Justice's Court. Said claim was rejected as being illegal and we justify their action in the premises.

In the matter of the allowance of claims we disagree with the Board as to the amounts paid such as the item of \$7 50 per cord paid for wood at the office of the Pub. Adm. in the month of October; but do not question the intent of the Board to do right.

The last Legislature having abolished the fee system and placed county officers upon a salary regulated by the requirements of each county; we have searched the Records of Claims and prepared exhibits of amounts paid by the county to the Court House officials during the years 1889 and 1891, with the view of testing the merits or demerits of the salary system and its corresponding value to this county.

We find that there was paid to these officers during the year 1889, the sum in round numbers of \$16,000.

The amount of salaries paid the same officers in 1891 was in round numbers \$20,000, but there was returned to the county by the same officers an amount of fees collected in the sum of \$9,000, thereby reducing their actual cost to the county to the sum of \$11,000, thus effecting a saving in expenses of \$5,000 for the past year. This annual saving, in addition to the many advantages of the Salary Act in other respects, should ensure it our honest support.

The office of the County Clerk returns here revenue to the county that the amount of salaries paid the Clerk and his Deputy.

The Auditor's office returns an amount sufficient to pay the salary of the Auditor, and the Sheriff returns to the county one-half the salaries paid to his office.

Again, the removal from our county officers, of the temptation and opportunity to increase their personal gains at the expense of others, is worth thousands of dollars annually to the county. The time of the County Commissioners is now consumed in hunting through lengthy fee bills, constructed in favor of the officer, and against the county. Attorneys are not forced to wink at vague items of fees against their clients or suffer the displeasure of the officials. Wealthy counties are not bound to a general fee system which affords their officials an annual fortune, that the officials in less favored counties may barely live, under the same schedule of fees.

Each county may now increase or decrease the salary of any officer, (by change of the statute) without interfering with the interests of other counties; and as times and circumstances change, may hold its legislators responsible for independent, personal action, in regulating salaries according to its ability to pay. The salary act should be amended, but to return to the old fee system would be suicidal and prejudicial to the interests of the people.

We find that J. M. Flanagan, County Assessor, was indebted to Washoe county at the close of his official career, for moneys collected and not paid over in amounts as follows:

Pol taxes collected & unpaid.....\$1,568 00  
Personal property tax collected and unpaid.....185 90  
Or. by salary unpaid.....175 90

Actual indebtedness.....\$1,678 00

As soon as said amount was found to be due the county the boardman of the Co. Assessor immediately paid said amount into the Co. Treasury.

We find property situated within the county that was overlooked by the Co. Assessor and not assessed of the value of about \$20,000—estimating same by the valuation made in 1880.

With respect to the public rumor or charge that said J. M. Flanagan had not taken the official oath before entering upon the duties of his office, we have no means of ascertaining that fact, as the law does not provide for a record of the same; but requires that the officer shall take the oath at the time he receives his certificate, and that said oath shall be indorsed upon his commission or certificate. (Sec. Sec. 2625, Compiled Laws.) Said certificate, with the oath indorsed thereon, is taken and kept by the officer as his official authority.

The presumption is that the law has been complied with, unless shown to the contrary. With respect to the qualifications of deputies appointed by said Flanagan, there was an utter failure to comply with the law.

Sec. 3069 of Compiled Laws reads as follows: "All appointments of deputies under the provisions of this Act, shall be in writing and shall, together with the oath of office of said deputies, be filed and recorded in a book provided for that purpose, in the office of the Recorder of the county, within which the principal legally holds and exercises his office."

Sec. 2926 of the Comp. Laws requires that a deputy, "before he proceeds to act, shall take the same oath as his principal."

We find no written appointment or oath of office of any or either of said deputies on file, or of record with the Recorder; nor do we learn that a written appointment was ever given to said deputies. The law requires that lists of property shall be delivered to the Assessor under oath or affirmation; consequently it is absolutely requisite that the deputy, as well as the principal, be officially qualified to administer an oath.

In the absence of law requiring a record of an official oath of elective officers, we would recommend that the Board of County Commissioners at the time of making an order (as they are required by law to do) for the issuance of election certificates, still further order, that the County Clerk file in his office a duplicate of the official oath administered.

We would further suggest that the County Recorder, upon a failure of appointed deputies within his knowledge, to file in his office their appointment and official oath for record, report the same to the District Attorney or Board of Co. Commissioners.

We have examined the books of the Sheriff and Clerk of Washoe county, and find the Sheriff's books neatly and plainly kept, and that he has accounted to the Co. Treasurer for all moneys received as required by law. We find the books of the Co. Clerk in like excellent condition. So far as we have been able to examine said books in the time allowed, we pronounce them correct and creditable to the officers mentioned.

We have examined the County Hospital or Poor House, and find it clean and neatly kept. Good wholesome food is provided in substantial amounts. We find seven patients in the building who speak in high terms of their treatment.

We think the bedding in insufficient, and would recommend that several pairs of new blanket be furnished.

We find the Court House in reasonable good repair and order.

The jail is in bad condition, the cells very much so, although the three prisoners seem healthy and able to eat a full allowance.

We think the Indigent Sick Fund more heavily drawn upon than circumstances require.

The county has furnished land and buildings for County Hospital purposes, which have cost \$12,000. The land is productive and should furnish a portion of food for its inmates, yet it has cost the county during the past year as follows:

Physicians' salaries.....\$1,170 00  
Hospital Steward.....1,920 00  
Miscellaneous expenses.....615 55

Total.....\$3,705 55

The county has paid in addition from the Ind't Sick Fund:

For Transportation.....\$ 50 00  
Burial of Paupers.....242 50  
Relief to Families.....556 28

Total.....\$848 78

These amounts far exceed the cost to the county for such purposes previous to the establishment of the County Hospital. We find the sum of \$4,554 33 too large for indigent sick purposes, and call upon the County Commissioners to reduce this amount.

We advise the rebuilding of the Court House fence.

We have failed in our efforts to find indictments for the selling or furnishing intoxicating liquors to the Indians. We would recommend that drunken Indians, upon their arrest, be confined closely upon a low diet until they state where they obtained their drink, and a strenuous effort be made to obtain convictions through their testimony. (See Stat. 1877, page 133,) by which statute Indians are made competent witnesses. Respectfully Submitted.

H. L. Foss, Foreman.

## Knights of Pythias.

In membership, this Order ranks fourth in fraternal societies. Masons first, Odd Fellows second, Knights of Honor third, and the Pythians fourth. Attached to the Order and under the direct control of the Supreme officers is an assurance degree. It differs from the other Orders of a similar kind from the fact that it is optional with a Knight of Pythias to insure or not. This feature of the Order has done much to advance its interests. Its benefits are to be found of value everywhere. The year just closed has been one of unprecedented growth, and the future is bright. Starting with but meagre membership, this Rank has grown until it is second to none.

Official report, Nov. 1, 1891, for Endowment Rank: First class, 12,681; second class, 17,145; third class, 185. Benefits paid in October: First class, 10 deaths, \$10,000; second class, 16 deaths, \$32,000; total, \$42,000 for the month. Total amount in all classes to date, \$897,750.

## Death of Henry A. Jones.

The Enterprise says the people of Virginia City were quite shocked Monday to hear of the death of Henry A. Jones, brother of Senator J. P. Jones, as very few had heard of his being ill. It appears that his death was caused by gastritis, or inflammation of the stomach. He had been in poor health for a long time, but was not taken seriously ill until three days ago. Deceased was about fifty years of age and unmarried. He had been a resident of the Comstock for many years, and was highly esteemed by all who knew him. He was of a most kindly disposition—a man who wished all other men well. He died at the family mansion at Gold Hill and Monday the flags were at half-mast in that town over the Crown Point, Belcher and Imperial works. His remains passed through here last evening on the way to San Francisco.

Under the present jury law of the country our grandest scholar might look down from the prisoner's box on six ignorant men selected to pass on his guilt or innocence. And the Judge would be obliged to tell him that he had been tried by a jury of his peers.

Benicia is enjoying great prosperity. During the past year over one hundred new buildings have been erected, and many new business enterprises established.

To the Public Generally, and Retail Liquor Dealers Particularly.

Messrs. E. Chielovich & Co., wholesale liquor dealers, 601 Front street, San Francisco, have just made a large shipment to their branch house in Reno, the Wine House on Commercial Row, of a fine lot of choice wines and liquors generally. These goods were selected with great care by them, especially for the holiday trade in Nevada. If you want any of these fine articles either by the drink, over the elegant bar of the Wine House, by the demijohn, or case, for your family use, or in larger quantities, for hotel or restaurant trade, you can get them here at bottom prices.
